Product Description:

Scaffolding Plank - Product Overview

The Scaffolding Plank is a versatile and durable product used in construction work, particularly in building scaffolding structures. Made from high-quality steel, this product is designed to provide a strong and stable platform for workers to stand on, ensuring their safety and enhancing their productivity.

Place of Shipment

The Scaffolding Plank is manufactured in China, a country known for its advanced steel production technology and strict quality control standards. This ensures that our customers receive a product of the highest quality and reliability.

Length

Our Scaffolding Plank can be customized to meet the specific needs of our customers. Whether you need a longer plank for larger scaffolding structures or a shorter one for smaller projects, we can provide the perfect solution for your requirements.

Material

The Scaffolding Plank is made from galvanized steel, a type of steel that has been coated with a protective layer of zinc to prevent rust and corrosion. This makes our product highly durable and suitable for use in various weather conditions.

Packaging

To ensure the safe delivery of our product, the Scaffolding Plank is packaged in containers. This protects the plank from any damage during transportation and ensures that it arrives at its destination in perfect condition, ready to be used.

Usage

The Scaffolding Plank is primarily used in building scaffolding structures, providing a sturdy and stable platform for workers to stand on while they carry out their tasks. It can also be used in other construction work, such as roofing, painting, and maintenance work.

With its high load-bearing capacity and non-slip surface, the Scaffolding Plank meets the safety standards of various industries and is an essential tool for any construction project.

Key Features

Made from high-quality galvanized steel

Customizable length to meet specific needs

Strong and stable platform for workers

Non-slip surface for enhanced safety

Suitable for various weather conditions

Meets safety standards of different industries

Overall, the Scaffolding Plank is a reliable and efficient product that is essential for any construction project. With its high-quality material, customizable length, and strong load-bearing capacity, it is the ideal choice for any scaffolding needs. Choose our BS1139 and OSHA certified steel scaffolding plank for your next construction project and experience the difference in safety and productivity.

Features:

Product Name: Scaffolding Plank

Packaging: Container

Material: Steel

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Usage: Scaffolding

Place of shipment: China

Steel scaffolding plank

Pierced steel planking

Galvanized steel planks

Technical Parameters:

Product Name	Scaffolding Plank
Material	Steel
Packaging	Container
Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding
Place of shipment	China

Product Name	Steel Plank for Scaffolding
Material	Steel
Packaging	Container

Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding
Place of Shipment	China
Key Features	Strong and durable, rust and corrosion resistant, customizable length & surface treatment

Product Name	**Galvanized Steel Plank for Scaffolding**
Material	Steel
Packaging	Container
Length	Customized
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding
Place of Shipment	China
Key Features	Strong and durable, galvanized for added protection against rust and corrosion, customizable length & surface treatment

Applications:

Scaffolding Plank - Bythai

Brand Name: Bythai
Model Number: BM205
Place of Origin: China
Minimum Order Quantity: 1000
Price: 4.5-8.5
Packaging Details: In bundles
Delivery Time: 10-15
Payment Terms: container, shipping
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage: Scaffolding
Packaging: Container
Length: Customized
Material: Steel
Product Description

The Scaffolding Plank by Bythai is a durable and versatile product that is used for construction and maintenance work. Made from high-quality steel, this product is designed to provide a strong and stable platform for workers to stand on while working at heights. It is suitable for use in a variety of applications, including building construction, renovations, and repairs.
Application and Usage

The Scaffolding Plank is specifically designed to be used in scaffolding systems. It is an essential component of scaffolding, providing a safe and stable working platform for workers to stand on. It can be used in a variety of construction projects, including building construction, bridge construction, and industrial maintenance work.
Features and Benefits

Our Scaffolding Plank is made from high-quality steel, making it strong and durable. It is available in different surface finishes, including pre-galvanized, hot dip galvanized, and spray plastic, to suit different project requirements. The plank is also customizable in length to fit different scaffolding configurations. Its sturdy construction and anti-slip surface make it safe for workers to use, providing stability and preventing accidents. The Scaffolding Plank is also lightweight and easy to install, making it a convenient choice for construction workers.
Packaging and Delivery

The Scaffolding Plank is packaged in bundles and delivered in containers, ensuring easy transportation and protection during shipping. With a minimum order quantity of 1000, we can accommodate bulk orders for larger construction projects. Our delivery time is 10-15 days, making it possible for our customers to receive their products in a timely manner.
Place of Origin and Price

The Scaffolding Plank is proudly made in China, ensuring high-quality standards and competitive pricing. Our price range of 4.5-8.5 is reasonable, considering the durability and versatility of our product.
Ordering and Payment

To place an order for our Scaffolding Plank, please contact us with your specifications and quantity requirements. We accept container and shipping payments, providing our customers with flexible payment options.
Conclusion

The Scaffolding Plank by Bythai is a reliable and essential product for any construction project. Its sturdy construction, customizable features, and competitive pricing make it a popular choice among construction workers. Order now and experience the quality and convenience of our Scaffolding Plank!

Packing and Shipping:

Packaging and Shipping of Scaffolding Plank

Our Scaffolding Planks are carefully packaged to ensure safe and secure delivery to our customers. Each plank is individually wrapped in protective packaging materials to prevent any damage during transit.
The planks are then placed in sturdy and durable cardboard boxes, which are sealed with heavy-duty tape to further protect the contents. Each box is labeled with the product name, size, and quantity for easy identification.
For bulk orders, the planks are stacked on pallets and tightly secured with strapping to ensure stability during transportation. The pallets are also labeled with the necessary information for efficient handling and storage.
Our company works with reputable shipping companies to ensure timely and efficient delivery of our products. We offer a variety of shipping options to cater to our customers' needs, including ground, air, and sea freight.
Upon arrival, our customers can expect their Scaffolding Planks to be in excellent condition, ready for immediate use. We take great care in our packaging and shipping process to ensure customer satisfaction and a hassle-free experience.
Thank you for choosing our Scaffolding Planks. We hope they meet and exceed your expectations. If you have any questions or concerns regarding the packaging and shipping of our products, please do not hesitate to contact us.
