Highly Customizable Step Height Scaffolding Ladders For Heavy Duty And Safe Work

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: bythai
- Model Number: BM224
- Minimum Order Quantity: 1000
- Packaging Details: container
- Delivery Time: 10-25

Product Specification

- Color: Silver
- Step Width: 50cm
- Surface Treatment: HDG
- Step Height: 30cm
- Size: 3m
- Load Capacity: 150kg
- Warranty: 2 Years
- Material: Aluminum/HDG
- Highlight: **Customizable Scaffolding Ladders**, **Antislip Scaffolding Ladders**, **150kg Ladder Scaffold Plank**

Product Description

Highly Customizable Step Height Scaffolding Ladders For Heavy Duty And Safe Work

Product Description:

Scaffolding Ladders - The Ultimate Solution for Safe and Efficient Access on Construction Sites

Scaffolding ladders are an essential piece of equipment on construction sites, providing workers with a safe and efficient way to access different levels of scaffolding. The Scaffolding Ladders, also known as Scaffolding Climbing Ladders or Scaffolding Access Ladders, are designed to meet the demands of the construction industry, providing a sturdy and reliable solution for workers to move between scaffolding levels with ease.

Our Scaffolding Ladders are available in a size of 3m, making them suitable for most construction projects. This height allows workers to easily access different levels of scaffolding without the need for additional equipment or tools. It also ensures that the ladders can be easily transported and stored when not in use.

When it comes to materials, we offer two options for our customers: Aluminum and HDG (Hot-Dip Galvanized). Our Aluminum Scaffolding Ladders are lightweight, making them easy to handle and move around on the construction site. They are also rust-resistant, ensuring a longer lifespan and durability. On the other hand, our HDG Scaffolding Ladders are made of galvanized steel, making them extremely strong and durable. They are also resistant to corrosion, making them ideal for outdoor use.

The step height of our Scaffolding Ladders is 30cm, providing workers with a comfortable and safe distance between each step. This ensures stability and reduces the risk of accidents or injuries while climbing up or down the ladder. The steps are also designed to be slip-resistant, providing additional safety measures for workers.

We understand the importance of providing high-quality products to our customers, which is why our Scaffolding Ladders come with a 2-year warranty. This ensures that our customers can have peace of mind and trust in the durability and safety of our products.

Our Scaffolding Ladders also come with a surface treatment of HDG (Hot-Dip Galvanized). This process involves coating the ladders with a layer of zinc, providing them with an additional layer of protection against corrosion and rust. This makes them suitable for use in various weather conditions, making them a reliable and long-lasting solution for construction sites.

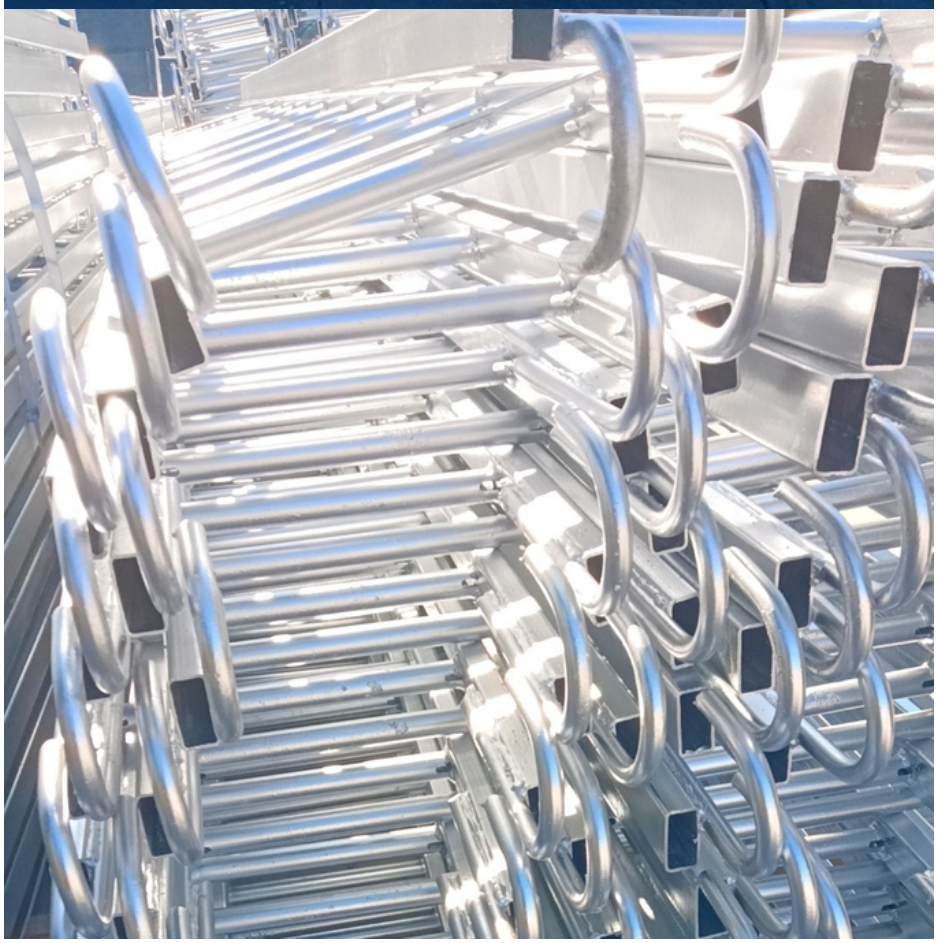
In conclusion, our Scaffolding Ladders are a must-have for any construction project. They provide a safe and efficient way for workers to access different levels of scaffolding, and their high-quality materials and design ensure durability and reliability. Choose from our range of Aluminum or HDG Scaffolding Ladders, and experience the convenience and safety they provide on your construction site.

Features:

Product Name: Scaffolding Ladders
Material: Aluminum/HDG
Step Width: 50cm
Step Height: 30cm
Color: Silver
Warranty: 2 Years
Scaffolding Step Ladders
Scaffolding Folding Ladders
Load-bearing ladder
Anti-slip design

Technical Parameters:

Product Name	Scaffolding Ladders
Material	Aluminum/HDG
Color	Silver
Surface Treatment	HDG
Size	3m
Load Capacity	150kg
Step Height	30cm
Warranty	2 Years
Step Width	50cm
Key Features	Suitable for scaffolding props installation Adjustable ladder with hook for easy attachment High load capacity for heavy-duty use



Customization:

Scaffolding Ladders Customized Services

Brand Name: bythai
Model Number: BM224
Place of Origin: China Tianjin
Minimum Order Quantity: 1000

Packaging Details: Container
Delivery Time: 10-25
Surface Treatment: HDG
Color: Silver
Material: Aluminum/HDG
Step Height: 30cm
Load Capacity: 150kg
Product Description:

Scaffolding Climbing Platforms

Sturdy and durable ladder with hook for easy installation

Adjustable ladder for different heights and areas

Customized Services:

Customized branding with logo and design

Customizable model number and specifications

Various color options to match your project needs

Personalized packaging and labeling

Flexible minimum order quantity to meet your requirements

Quick delivery within 10-25 days

Surface treatment options, including HDG for enhanced durability

Material options of aluminum or HDG based on your preference

Step height of 30cm for safe and comfortable climbing

Load capacity of 150kg to support heavy weight

Packing and Shipping:

Scaffolding Ladders Packaging and Shipping

Our Scaffolding Ladders are carefully packaged to ensure safe delivery to our customers. Each ladder is wrapped in protective material and securely placed in a sturdy cardboard box. Additionally, our packaging includes foam padding and dividers to prevent any damage during transportation.
For international shipments, we use high-quality wooden crates to provide extra protection and to comply with shipping regulations. Our crates are heat-treated and stamped with the appropriate markings to ensure smooth customs clearance.
For added convenience, all necessary hardware and assembly instructions are included in the packaging. We also offer customized packaging options for bulk orders to meet the specific needs of our customers.
Shipping

We offer both domestic and international shipping options for our Scaffolding Ladders. Our domestic shipments are typically fulfilled within 2-3 business days, while international shipments may take up to 7-10 business days depending on the destination.
We partner with trusted shipping carriers to ensure timely delivery and provide tracking information for all orders. Customers also have the option to expedite their shipping for an additional fee.
Please note that additional fees may apply for international shipments, such as customs duties and taxes. Customers are responsible for any applicable fees and are advised to check with their local customs office for more information.
At Scaffolding Ladders, we are committed to providing a seamless and hassle-free packaging and shipping experience for our customers. If you have any questions or concerns, please don't hesitate to contact us. We are happy to assist you in any way we can.
