

Contruction Equipment Tools Shipment Scaffolding Plank Hot Dip Galvanized Surface

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Length: Customized
- Place Of Shipment: China
- Usage: Scaffolding
- Packaging: Container
- Material: Steel
- Highlight: **Construction Equipment Scaffolding Plank, Hot Galvanized Surface Scaffolding Plank, Shipment Scaffolding Walk Boards**

Contruction Equipemt Tools Shipment Scaffolding Plank Hot Dip Galvanized Surface

Product Description:

Scaffolding Plank Product Overview

The Scaffolding Plank is an essential component in the construction industry, specifically in scaffolding systems. It is a strong and durable platform used for workers to walk on and perform their tasks at elevated heights. This product overview will provide detailed information about the Scaffolding Plank, which is made of steel and offers various surface options to meet the needs of different construction projects.

Usage

The Scaffolding Plank is designed for use in scaffolding systems, which are temporary structures used to support workers and materials during construction, maintenance, and repair projects. This product is specifically used as a walking platform for workers to move freely and safely at elevated heights. It is suitable for a wide range of applications, including building construction, bridge construction, shipbuilding, and industrial maintenance.

Material

The Scaffolding Plank is made of high-quality steel, known for its strength, durability, and resistance to corrosion. The use of steel ensures that the plank can withstand heavy loads and harsh environmental conditions, making it a reliable and long-lasting product. The steel used in the Scaffolding Plank is sourced from reputable suppliers and undergoes strict quality control measures to ensure its strength and safety.

Length

Customization is a key feature of the Scaffolding Plank. The length of the plank can be customized according to the specific requirements of the construction project. This flexibility allows the product to fit different scaffolding systems and meet the unique needs of each project. The length can range from a few feet to several meters, providing a wide range of options for different construction projects.

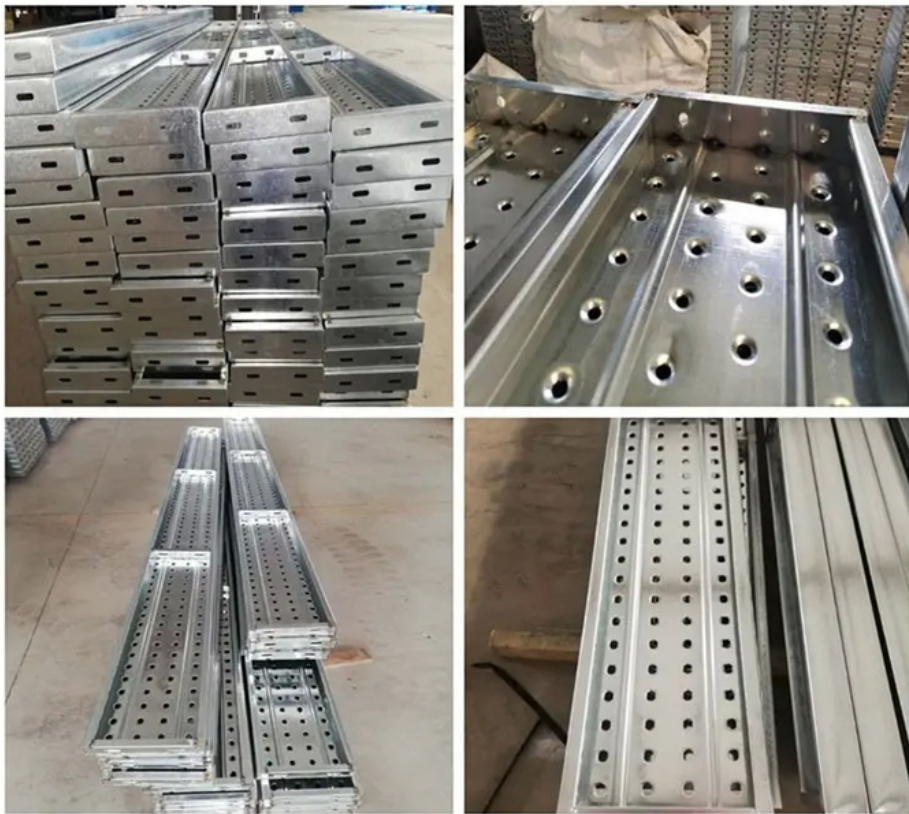

Place of Shipment

The Scaffolding Plank is manufactured and shipped from China, a leading producer of steel products. China has a well-established steel industry, ensuring the high quality of the Scaffolding Plank. The product is shipped to various countries around the world, making it easily accessible for construction projects globally.

Surface Options

The Scaffolding Plank is available in three surface options: pre-galvanized, hot dip galvanized, and spray plastic. Pre-galvanized scaffolding planks have a thin layer of zinc coating, providing protection against corrosion. Hot dip galvanized steel planks have a thicker layer of zinc coating, making them more resistant to corrosion and suitable for harsh environments. Spray plastic scaffolding planks have a layer of plastic coating, providing extra durability and making them ideal for long-term use.

China. Choose the Scaffolding Plank for your next construction project and ensure the safety and efficiency of your workers.

Applications:

Introducing the Bythai BM205 Scaffolding Plank

Scaffolding is an essential tool for any construction project, providing a safe and efficient way for workers to access hard-to-reach areas. And when it comes to scaffolding, the Bythai BM205 Scaffolding Plank is the perfect choice for all your construction needs.

As a leading manufacturer and supplier of high-quality scaffolding products, Bythai is proud to introduce the BM205 Scaffolding Plank. Made from durable steel material, our scaffolding plank is designed to withstand heavy loads and provide a safe and stable walking platform for workers.

Product Attributes

Brand Name: Bythai

Model Number: BM205

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15 days

Payment Terms: Container, shipping

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Place of shipment: China

Packaging: Container

Usage: Scaffolding

Material: Steel

Applications and Scenarios

The Bythai BM205 Scaffolding Plank is ideal for various applications and scenarios in construction projects. Here are some of the common uses of our scaffolding plank:

Scaffolding Walkways

Our scaffolding plank can be used as a safe and sturdy walkway for workers to access different areas of a construction site. The plank's lightweight and flexible design make it easy to install and move around as needed.

Steel Frame for Decking Plank

The BM205 Scaffolding Plank can also be used as a steel frame for decking plank, providing a solid base for workers to stand on while working on higher levels of a construction project. Its durable steel material can support heavy loads, making it a reliable choice for decking plank.

Pierced Steel Planking

Another common use for our scaffolding plank is as pierced steel planking, which is a type of portable roadway used in construction sites. The BM205 Scaffolding Plank's strong and stable surface makes it suitable for heavy-duty use as a roadway.

Why Choose the Bythai BM205 Scaffolding Plank?

There are many reasons why the Bythai BM205 Scaffolding Plank stands out as the top choice for scaffolding needs:

Easy to Install: The BM205 Scaffolding Plank is designed for easy and quick installation, saving you time and effort on the job.

Durable: Made from high-quality steel material, our scaffolding plank is built to last and withstand heavy loads.

Lightweight and Flexible: The plank's lightweight and flexible design make it easy to move and adjust as needed, providing more versatility in different working scenarios.

Cost-Effective: With our competitive pricing, the BM205 Scaffolding Plank is a cost-effective choice for all your scaffolding needs.

Safe and Efficient: The strong and stable surface of our scaffolding plank provides a safe and efficient working platform for workers, ensuring a smooth construction process.

Don't settle for subpar scaffolding products that compromise on safety and performance. Choose the Bythai BM205 Scaffolding Plank for your next construction project and experience the difference in quality and efficiency. Contact us now to place your order!

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Our Scaffolding Planks are carefully packaged to ensure safe and secure delivery to your location. Each plank is wrapped in protective material and placed in a sturdy wooden crate to prevent any damage during transportation.

We offer both individual and bulk packaging options to meet your specific needs. Our planks can be individually wrapped or bundled together in quantities up to 50 per crate.

For international shipments, our planks are packed in compliance with all relevant export regulations and standards. We take great care to ensure that your order arrives in perfect condition and on time.

Shipping Options

We offer a variety of shipping options to accommodate your timeline and budget:

Standard Ground Shipping - 5-7 business days

Expedited Shipping - 2-3 business days

International Shipping - delivery times vary by location

Once your order is shipped, you will receive a tracking number via email so you can monitor the delivery status of your planks.

Customs and Duties

For international shipments, please note that customs and duties may apply. These fees are the responsibility of the buyer and are not included in the shipping costs. We recommend checking with your local customs office for more information.

If you have any questions or concerns about our packaging and shipping process, please don't hesitate to contact us. We are committed to providing top-quality products and excellent customer service.
