Premium Quality Hollow Steel Scaffolding Poles for Structural Support

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS
- Model Number: BT01
- Price: $5-$18
- Packaging Details: In bundles
- Delivery Time: 7-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

Product Specification

- Yield Strength: 245N/mm2
- Name: Galvanised Scaffold Tube
- Material: Galvanised Steel
- Tensile Strength: 420N/mm2
- Diameter: 42mm, 48.3mm, 60.3mm, Etc
- Application: Scaffolding
- Standard: EN39/BS1139
- Thickness: 3.2mm
- Manufacturer: Galvanised Scaffold Co.
- Surface Treatment: Hot Dipped Galvanised
- Durability: Long-lasting
- Elongation: >20%
- Corrosion Resistance: High

Product Description

Product Description:

Unwavering Strength, Unmatched Efficiency: Premium-Quality Hollow Steel Scaffolding Poles for Structural Support
Elevate your construction projects with the ultimate in strength and efficiency: premium-quality hollow steel scaffolding poles! These robust poles are engineered to provide exceptional structural support, allowing you to construct towering and complex scaffolding structures with confidence.
Built for Exceptional Strength:
High-Strength Steel Construction: Manufactured from premium-grade steel, these hollow poles offer an optimal balance between weight and load capacity. This allows for the construction of strong and stable scaffolding systems, even for heavy-duty applications.
Advanced Design Optimization: The hollow core design minimizes material usage while maintaining exceptional load-bearing capabilities. This translates to lighter-weight poles for easier handling without compromising structural integrity.
Maximizing Construction Efficiency:
Streamlined Assembly and Disassembly: The lightweight nature of the hollow poles facilitates faster and more efficient setup and dismantling of your scaffolding system, saving valuable time and labor costs on your projects.
Reduced Transportation Costs: The lighter weight of these poles translates to lower transportation costs, making them a cost-effective choice for large-scale construction projects.
Seamless Integration: Our premium hollow steel poles integrate seamlessly with various scaffolding components, allowing for versatile configurations tailored to your specific structural support needs.
Additional Features:
Durable Hot-Dip Galvanized Finish: The hot-dip galvanization process creates a protective zinc coating that shields the poles from rust and corrosion, ensuring long-lasting performance and minimizing maintenance requirements.
Wide Range of Sizes Available: We offer a variety of pole diameters and lengths to accommodate diverse scaffolding configurations and project load requirements.
Compliance with Safety Standards: Our premium hollow steel poles adhere to rigorous safety regulations, prioritizing worker safety and project compliance.
Ideal Applications for Premium-Quality Hollow Steel Scaffolding Poles:
Construction of high-rise buildings and skyscrapers.
Scaffolding for complex bridge and tunnel projects.
Supporting heavy loads in industrial and commercial construction.
Creating multi-level scaffolding structures for complex projects.
And many more structural support applications!
Invest in Unwavering Strength and Efficiency:
Don't compromise on strength or efficiency when it comes to structural support. Our premium-quality hollow steel scaffolding poles provide the exceptional load capacity, lightweight design, and ease of use you need to take your construction projects to new heights.
Contact us today to explore our selection of premium hollow steel scaffolding poles and find the perfect solution for your structural support needs!

Technical Parameters:

Parameter	Value
Name	Galvanised Scaffold Tube
Diameter	48.3mm
Thickness	3.2mm
Weight	6.4kg/m
Material	Galvanized Steel
Application	Scaffolding
Standard	EN39
Surface Treatment	Galvanized
Yield Strength	245N/mm2
Tensile Strength	420N/mm2

Galvanised Scaffold Tube is a type of building scaffolding pipes used in tube and coupler scaffolding systems. Made of galvanised steel, it has a diameter of 48.3mm and a thickness of 3.2mm. The tube weighs 6.4kg/m and has a yield strength of 245N/mm2 and a tensile strength of 420N/mm2. It is standardised under EN39 and has a galvanised surface treatment for added durability and corrosion resistance.

Applications:

Galvanised Scaffold Tube: The Ultimate Building Support Solution

Brand Name: Bythai Scaffolding
Model Number: BT01
Place of Origin: China
Certification: SGS
Price: $5-$18
Packaging Details: In bundles

Delivery Time: 7-15 days
Payment Terms: TT/LC
Supply Ability: 1000tons per month
Material: Galvanised Steel
Yield Strength: 245N/mm2
Tensile Strength: 420N/mm2
Surface Treatment: Galvanised

Customization:

Galvanised Scaffold Tube Customization Service

Brand Name: Bythai Scaffolding
Model Number: BT01
Place of Origin: China
Certification: SGS
Price: $5-$18
Packaging Details: In bundles
Delivery Time: 7-15 days
Payment Terms: TT/LC
Supply Ability: 1000tons per month
Surface Treatment: Galvanised
Weight: 6.4kg/m
Material: Galvanised Steel
Tensile Strength: 420N/mm2
Standard: EN39
Key Features:

Scaffolding steel tube with galvanised surface treatment for durability and rust resistance

Model number BT01 for easy identification and compatibility with Bythai Scaffolding systems

Certified by SGS for quality assurance

Competitive price range of $5-$18 per tube

Secure packaging in bundles for safe transportation and storage

Fast delivery time of 7-15 days

Flexible payment options of TT or LC

High supply ability of 1000tons per month for bulk orders

Lightweight design with a weight of 6.4kg/m for easy handling and installation

Made from galvanised steel for strength and durability

Tensile strength of 420N/mm2 for reliable support and stability

Conforms to standard EN39 for quality and safety

Customization Options:

Custom lengths and sizes available according to customer requirements

Option to add scaffold tube caps for added protection and safety

Branding and logo customization available for bulk orders

Trust Bythai Scaffolding for all your scaffolding steel tube needs. Our galvanised scaffold tubes provide the perfect combination of strength, durability, and affordability for your construction projects. Contact us now to learn more and place your order.

Support and Services:

Technical Support & Service

At Galvanised Scaffold Tube, we pride ourselves on providing top-quality products and exceptional customer service. Our technical support and service team is dedicated to ensuring that our customers have all the resources they need to successfully use our scaffold tubes.

Technical Support

Our technical support team is available to assist with any questions or concerns you may have regarding our Galvanised Scaffold Tube products. We can guide proper installation, usage, and maintenance of our scaffold tubes. Our team is also knowledgeable about safety regulations and can offer advice on how to comply with them.

If you encounter any issues while using our products, our technical support team is here to help. We can troubleshoot and provide solutions to any problems you may encounter. We are committed to ensuring that our customers have a smooth and successful experience with our scaffold tubes.

Service

In addition to our technical support, we also offer exceptional customer service to ensure a positive experience for our customers. Our service team is available to answer any questions and assist with any issues you may have. We are committed to responding promptly and providing effective solutions to any concerns you may have.

We also offer a warranty on all of our Galvanised Scaffold Tube products, providing our customers with peace of mind and ensuring the quality of our products. If you encounter any issues with our products, our service team will work with you to resolve them quickly and efficiently.

At Galvanised Scaffold Tube, we value our customers and strive to provide the best technical support and service in the industry. We are dedicated to ensuring that our customers have a positive experience with our products and are always available to assist with any questions or concerns. Thank you for choosing Galvanised Scaffold Tube.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Bythai Scaffolding.

Q: What is the model number of this product?

A: The model number of this product is BT01.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: Does this product have any certification?

A: Yes, this product is certified by SGS.

Q: What is the price range for this product?

A: The price for this product ranges from $5 to $18.

Q: How is this product packaged?

A: This product is packaged in bundles.

7. **Q: How long does it take for this product to be delivered?**

A: The delivery time for this product is 7-15 days.

8. **Q: What are the payment terms for this product?**

A: The payment terms for this product are TT (Telegraphic Transfer) or LC (Letter of Credit).

9. **Q: What is the supply ability of this product?**

A: The supply ability of this product is 1000 tons per month.
