Our Product Introduction

Product Description

Product Description

This Ringlock Wedge Pin is precision-engineered to provide a secure and reliable connection between scaffolding components. Made from high-quality steel with a 48mm diameter, it features a hot-dipped galvanized finish for enhanced corrosion resistance. The wedge pin's robust design ensures a tight fit, preventing movement and ensuring the stability of the scaffold. It is an essential accessory for any Ringlock scaffolding system, offering ease of installation and long-lasting performance. Suitable for both commercial and industrial use, this wedge pin helps maintain the integrity and safety of your scaffolding structures.
